

EDUCATION

Ohio University | Athens, Ohio 45701

Scripps College of Communication | Graduation date: June 2010

Bachelor of Science in Visual Communication, Interactive Multimedia, Specialization in History.

WORK EXPERIENCE

Kevin Morgan Studio (Internship) | Athens, Ohio, 2010

During my winter quarter of my senior year at Ohio University, I interned with Kevin Morgan Studio in Athens, Ohio. I worked independently under the help and guidance of Michael McSteen conceptualizing and starting the design for a Halloween in Athens website for the annual event. I was able to work out CSS along with some design concepts for the future website.

Affinity Electrical | Hudson, Ohio, 2009-Present

I created and designed the company website for Mike Gardner of Affinity Electrical. I also help maintain the site whenever changes or updates need to be made for it. You can view the site at (www.affinity-electrical.com).

Alex Snyder Photography | Nelsonville, Ohio, 2008-Present

I have worked alongside as well as for Alex Snyder of Alex Snyder Photography. Alex is a talented photographer who enjoys doing nature and travel photography as well as some commercial in his free time. I designed and created and maintained his online portfolio. You can view the site at (www.alexsnnyder.com).

Lakewood Alumni Foundation | Lakewood, Ohio, 2004-2006

In high school I worked with the Executive Director, Teresa Coyne Andreani in creating meeting invitations that were sent to hundreds of alumni. She helped me in every way possible achieve my goals in Interactive Multimedia and gave me opportunities to further increase my skills as a designer.

St. Anthony of Padua Parma Schools | Parma, Ohio, 2006

In high school I was asked to create a website for the St. Anthony of Padua Schools. They only had a website for the church and wanted to let the parents and students of the school know who the teachers were as well as any and all information on what the school was doing in terms of holidays and extra curricular activities. The site no longer exists.

Lakewood Board of Education | Lakewood, Ohio, 2004-2005

When I was in high school, the Lakewood Board of Education had started the reconstruction of all Lakewood City Schools by demolishing some elementary schools and refurbishing others. I was commissioned to design billboards to be placed near the construction sites to allow community to have information about the construction or reconstruction of the 5 educational facilities being done: Harrison, Hayes, Garfield, Franklin and Madison Elementary.
